A vital part of Christmas is based on the concept of gifting, rather, the humble conception of giving. To celebrate this idea, team Kraftovity received the fortunate opportunity to gift smiles to young children.

The Kraftovity team visited 'Wood-Apple School', situated in Ekamrakana, Bhubaneswar on 25th December. The concerned school is an institute developed to ensure the quality education of children diagnosed with dyslexia.

Following this, the members of the team interacted with the students to affirm their well-being. Of course, even if we tried, we could not exactly comprehend the struggles that the children face on a daily basis. So, we did what we could do from our end; we gave them warmth through our motivating words and showed them our hearty support.

To lighten up the mood and bring about the festive vibe, a few competitions were held for the students which included the showcase of their talents in performing arts like singing and dancing. The best performers, or winners, were also awarded prizes for their shows.
